

COVID-19 (novel coronavirus)

This section provides the latest updates, information and advice on COVID-19.

Current situation

Case numbers

There are 2 new cases of COVID-19 today, 12 September 2020. There are now 108 active cases of COVID-19 in New Zealand. See our [current cases page](#).

Contact tracing and self isolation

We are tracing all close contacts of these cases, and getting them tested for COVID-19. All close contacts will remain in self-isolation for 14 days. Most casual contacts do not need to self-isolate and only need to be tested if they develop symptoms. [Read more information on self isolation for close and casual contacts](#).

Alert levels

All of New Zealand is at **Alert Level 2**. Gatherings within the Auckland region may involve a maximum of ten (10) people. There can be up to 50 people at funerals and tangihanga if the event is registered with the Ministry of Health. Find out more on the [Unite Against COVID-19 website](#).

Where to get a test for COVID-19 in Auckland

If you develop symptoms consistent with COVID-19, have a test.

You can get a test:

- at most GPs – call ahead to find out if you need a test and follow their advice
- at a [Community Testing Centre](#) – this list will continue to be updated.

People in other regions can check their [local district health board website](#) to find out about testing in their area.

For COVID-19 health advice and information, contact the Healthline team (for free) on [0800 358 5453](#) or [+64 9 358 5453](#) for international SIMS.
