Under investigation		0	0		
Definitions					
Active case - confirmed	Confirmed cases are people that have been tested, and the test confirms they have COVID-19 (ie, a positive test). For more details, see the COVID-19 case definition.				
Active case - probable	A probable case is when someone is diagnosed based on their exposure to other people with COVID-19 and on their symptoms.				
In managed facilities	In managed isolation or quarantine facilities; hospitalisation not needed				
Recovered	Recovered cases are people who had the virus, where at least 10 days have passed since the symptoms started and they have not had symptoms for 72 hours, and they have been cleared the health professional responsible for their monitoring.
