Note: Total positive tests may be higher than total confirmed cases for the day because test results are undergoing case validation and processing. The DOH is currently improving the reporting mechanisms of COVID-19 testing laboratories. At present, the Department publishes both daily and cumulative total tests that are self-reported by the testing labs. We acknowledge there are inconsistencies in the data and will pause further updates until these issues are clarified with the laboratories as soon as possible.

DATE	TIME	UPDATE
May 14, 2020	5:00 PM	<p>DOH issues Press Release: Experts rally behind DOH data integrity, AIM, Ateneo data scientists affirm validity of findings</p> <p><i>With the easing of the quarantine across the nation presenting a new chapter in the Philippines' fight against COVID-19, local experts have rallied behind the Department of Health (DOH) to affirm the government's decision-making process through sound reporting of data. According to data scientists Dr. Reena Estuar of the Ateneo de Manila University and Dr. Maya Herrera of the Asian Institute of Management (AIM), as the country is battling a new virus, data is not always guaranteed with 100% accuracy. In a media forum this morning, both described how the DOH goes through a rigorous process in ensuring data accuracy in the reporting of COVID cases...</i></p>
May 13, 2020	5:00 PM	<p>DOH issues Press Release: Government offers full support in quarantine, isolation facilities</p> <p>With the incoming easing and lifting of community quarantines across the nation, the government has been bolstering its testing, isolation, and quarantine facilities to prevent overwhelming the healthcare system when a possible spike in infection occurs. In today's Beat COVID-19 Virtual Presser, Health Undersecretary Dr. Maria Rosario Singh-Vergeire discussed with Bases Conversion and Development Authority President and CEO Vince Dizon how the government is improving the country's isolation measures as part of its national response against COVID-19...</p>
