Note: Total positive tests may be higher than total confirmed cases for the day because test results are undergoing case validation and processing. The DOH is currently improving the reporting mechanisms of COVID-19 testing laboratories. At present, the Department publishes both daily and cumulative total tests that are self-reported by the testing labs. We acknowledge there are inconsistencies in the data and will pause further updates until these issues are clarified with the laboratories as soon as possible.

DOH issues Press Release: Malasakit: panlaban natin sa COVID-19; former UP Chancellor contextualizes pandemic for Filipinos

The easing of the community quarantine across the Philippines is a huge breath of relief for many Filipinos whose lives and livelihoods have been displaced, but experts from the academic community caution that day-to-day behavior has to change until a vaccine is found. In the May 16 media forum, medical anthropologist and University of the Philippines (UP) professor, Dr. Michael Tan, appealed to both the government and the public to practice healthy behaviors while the virus continues to pose risks. The former UP Chancellor also called on all Filipinos to be kinder and more understanding, highlighting the importance of social solidarity in the fight against COVID-19...
