HEALTH TIP

Protect yourself from COVID-19. Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water. Why? Washing your hands with soap and water or using alcohol-based hand rub kills viruses that may be on your hands.

dohseychelles

- (e.g. responses, termination of the impeasing the disinfectant regularly.

 Encourage regular disinfection of commonly touched surfaces such as door handles, kettles, fridge and microwanes.

 Disinfectant can be prepared as follows (1 portion bleach 9 portion water or as indicated on label)

 Avaid sharing personal items & office

Department of Health urges members of the public who have family members arriving in the country to call 141 in advance to provide the family member's following details:

- Name & surname
 Flight number and date and time of arrival
 Address in Seychelles

This will enable Public Health Officers to do

Department of Health Seychelles

Members of the public are advised that the Department of Health has not issued a written update yet for Saturday 21st March 2020. The update circulating on social and digital media is not from the Department of Health. Impersonating the Department of Health and tempering with official templates is a serious offence that camies legal consequences.
