MARCH 25, 2020

### HEALTH TIP

Protect yourself from COVID-19. Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water. Why? Washing your hands with soap and water or using alcohol-based hand rub kills viruses that may be on your hands.

## OUR INSTAGRAM

**dohseychelles**

(e.g. telephones, keyboards) need to be wiped with disinfectant regularly.

- Encourage regular disinfection of commonly touched surfaces such as door handles, kettles, fridge and microwaves.
- Disinfectant can be prepared as follows (1 portion bleach 9 portion water or as indicated on label)
- Avoid sharing personal items & office stationeries.

Department of Health urges members of the public who have family members arriving in the country to call 141 in advance to provide the family member's following details:

- Name & surname
- Flight number and date and time of arrival
- Address in Seychelles

This will enable Public Health Officers to do necessary home visit in advance to assess
