HEALTH TIP

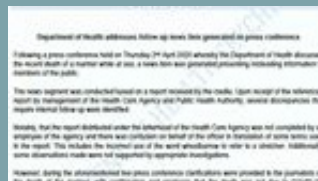

Protect yourself from COVID-19. Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water. Why? Washing your hands with soap and water or using alcohol-based hand rub kills viruses that may be on

your hands.

Department of Health Seychelles

New measures implemented to further prevent spread of COVID-19

A press conference on Tuesday 7th April 2020, by the Department of Health presented new measures that are being implemented to prevent the spread of COVID-19. This comes as a new case of COVID-19 was detected on Monday 6th April 2020 that had the authorities classifying it as a community transmission given the amount of people he had co... [See More](#)
