Health workers across the islands, take the streets commemorating world patient safety day. The activity aimed at educating the public on COVID-19 preventive measures, was a good opportunity to also learn from the public and interact. Despite the tense atmosphere in the country currently, the expressions on the face of our colleagues, tell that the activity was not only work but fun with the participation of different cadres of the health professional.

Below are some pictures of the activity held on Saturday 19th September, 2020.
