Public Health Agency

One of the best measures to prevent infection and transmission of COVID-19 and other diseases is by washing your hands with soap and water. Key times you should WASH your hands include:

- 1) Before touching your face
- 2) After sneezing or coughing
- 3) After using the toilet
- 4) Before & after changing diapers
- 5) Throughout preparation of food
- 6) Other examples included in the video...
