PRESS RELEASE

Update on COVID-19 cases _10th January 2021

JANUARY 10, 2021

Health authorities investigate the death of patient

JANUARY 9, 2021

Update on COVID-19 cases _9th January 2021

JANUARY 9, 2021

NOTICE

Anyone with symptoms related to Covid-19 are asked to report to special stations at Glacis Health Centre, Baie Lazare Health Centre and Mont Fleuri Health Centre between 8am-12pm and 1pm-2pm. People who use these health centres for regular consultations, should go to their regional centres.

.....

To protect health facilities from COVID-19, Health Care Agency is reinforcing the following measures

- No visitor is allowed to ICU
- Only one visitor per patient is allowed to the Seychelles Hospital
- Strictly no child allowed for visits on the wards
- Wearing of masks in all health facilities is mandatory for patients, staff and visitors

[Official page](#)

In 2020, without a vaccine many lives has been lost, for many, lives has come to a stand still and have lead to leaving out of fear. The newly developed vaccines are effective and safe, and are a key component (used in conjunction with other public health measures) in ending the COVID-19 pandemic.

Vaccines before and especially now more than ever as we come together to fight this Global Pandemic, means lives saved, days in school, futures made, lives lived and disability averted.
