Updates on COVID-19 (Coronavirus Disease 2019) Local Situation

18 Mar 2020

Clarifications on Misinformation

28 Feb 2020: MOH is aware of a rumour circulating on social media that a foreign domestic worker had passed away from COVID-19 in Singapore. This is not true. She was tested for COVID-19 and found to be negative.

As of 4pm on 28 Feb 2020, there has been no fatality related to COVID-19 in Singapore.

We advise members of the public to not speculate and/or spread unfounded rumours. Please visit www.moh.gov.sg for updates on the COVID-19 situation and click [here](#) for past clarifications.

Case Summary in Singapore (as of 17 Mar 2020, 1200h)

ACTIVE CASES

152	
Hospitalised (Stable)	Hospitalised (Critical)
138	14
Death	Discharged
0	114

Precautions you can take

We urge Singaporeans to remain calm and vigilant. Singaporeans can continue to play their part by being socially responsible and practising good personal hygiene habits (click [here](#) to view Health Advisories). They should wash their hands regularly. Those who are unwell should wear a mask and see a doctor immediately. But there is no need to wear a mask if you are well.

Travel Advisory (Updated 15 Mar 2020)

Please refer to this [press release](#) for more details.

With immediate effect (15 Mar 2020), Singaporeans are advised to defer all non-essential travel abroad. This advisory will apply for 30 days, and will be reviewed thereafter. This is to reduce the risk of Singaporeans contracting COVID-19 infection while overseas during this global pandemic.

Singaporeans who have made plans to travel abroad during the March school holidays are advised to review their plans. All travellers will be subject to the prevailing travel measures imposed by their destination countries, and those imposed by Singapore upon their return home. As the situation remains uncertain and will continue to evolve, Singaporeans are advised to review their travel plans for the coming months after the March school holidays as well.

As Singapore's measures will evolve according to the global situation, Singaporeans should check the MOH website (<https://www.moh.gov.sg/covid-19>) for the latest measures.

Health Advisory

All travellers should monitor their health closely for two weeks upon return to Singapore and seek medical attention promptly if they feel unwell. Travellers should inform their doctor of their travel history. If travellers have a fever or respiratory symptoms (e.g. cough, shortness of breath), they should wear a mask and call the clinic ahead of the visit.

Travellers and members of the public should adopt the following precautions at all times:

- Avoid close contact with people who are unwell or showing symptoms of illness;
- Observe good personal hygiene;
- Practise frequent hand washing with soap (e.g. before handling food or eating, after going to toilet, or when hands are dirtied by respiratory secretions after coughing or sneezing);
- Wear a mask if you have respiratory symptoms such as a cough or runny nose;
- Cover your mouth with a tissue paper when coughing or sneezing, and dispose the soiled tissue paper in the rubbish bin immediately; and
- Seek medical attention promptly if you are feeling unwell.

Situation

Global	167,511 confirmed (13,903 new)
China	81,077 confirmed (29 new)
Outside China	86,434 confirmed (13,874 new)
	in 151 countries / territories / areas (4 new)

WHO Risk Assessment

China	Very High
Regional Level	Very High
Global Level	Very High

INFOGRAPHICS AND POSTERS

Precautionary testing for symptomatic travellers

From 13 March 2020,

- Travellers entering Singapore and exhibiting fever and/or other symptoms of respiratory illness are required to undergo a COVID-19 swab test at the checkpoint, regardless of travel history. With immediate effect, all such travellers will also be issued a 14-day SHN^[1], which they will have to serve in full even if the result of the swab test is negative. Those who meet the clinical suspect case definition will be conveyed to the hospital for follow-up.
- Short-term visitors who are identified for testing but refuse to do so will not be allowed entry into Singapore. Singapore Permanent Residents and long-term pass holders who refuse testing may have their immigration facilities and work pass privileges revoked or the validity shortened. All travellers, including Singapore Citizens, who do not comply with the testing or who cannot be contacted subsequently may face penalties and can be prosecuted under the Infectious Diseases Act.

[1] Places where foreign visitors serve out their SHN period can include hotels.

Please refer to this [press release](#) for more information.

It's **ORANGE** now but you can **STAY SAFE WITH THE 5M's**

Play your part in containing the spread of COVID-19 (Coronavirus Disease 2019) by following the **5M's**.

- MANAGE MY HEALTH**
By keeping a close watch on my body for symptoms.
- MAINTAIN CLEAN HANDS**
Through good personal hygiene of regular hand washing with soap and water.
- MINIMISE CONTACT**
With those who are unwell.
- MASK UP WHEN UNWELL**
And visit the doctor immediately.
- MONITOR THE NEWS**
With [moh.gov.sg](#) and [Gov.sg WhatsApp](#).

DORSCON Orange indicates that while the disease is severe and spreads easily from person to person, it has not spread widely and is being contained in Singapore. Be socially responsible. Maintain good personal hygiene. Look out for health advisories. Comply with control measures.

PRACTISE GOOD PERSONAL HYGIENE
The Ministry of Health has introduced additional measures to minimise public health risks.
Visit [www.moh.gov.sg](#) for the latest updates.
