 Listen 

As of 29 March 2020, 12pm, the Ministry of Health (MOH) has confirmed 24 imported and 18 local cases of COVID-19 infection in Singapore.

- 24 imported cases had travel history to Europe, North America, Middle East, ASEAN and other parts of Asia.
- 8 cases are linked to clusters or previous cases.
- 10 cases are currently unlinked, and contact tracing is ongoing.

14 more cases have been discharged from hospital or community isolation facilities. Of the 423 who are still hospitalised, most are stable or improving. 19 are in the intensive care unit.

206 cases who are clinically well but still test positive for COVID-19 are isolated and cared for at Concord International Hospital, Mount Elizabeth Hospital, Gleneagles Hospital and the Community Isolation Facility at D'Resort NTUC.

For more details, refer to MOH's [press release](#).

For an overview of the COVID-19 cases in Singapore, refer to the table below:
