Listen

As of 26 May 2020, 12pm, the Ministry of Health (MOH) has confirmed 383 new cases of COVID-19 infection in Singapore.

Among the cases:

- Imported cases: 0
- Cases in the community: 2 (1 Singaporean, 1 Work Permit holder)
- Cases residing in dormitories: 381

Of the new cases, 99% are linked to known clusters, while the rest are pending contact tracing.

706 more cases of COVID-19 infection have been discharged from hospitals or community isolation facilities. To date, 16,444 have fully recovered from the infection and have been discharged from hospitals or community isolation facilities

As of today, there are more people who have recovered than active patients.

Most of the 585 confirmed cases who are still in hospital are stable or improving. 8 are in critical condition in the intensive care unit.

15,291 cases who have mild symptoms, or are clinically well but still test positive for COVID-19 are isolated and cared for at community facilities.

23 have passed away from complications due to COVID-19 infection.

For more details, refer to MOH's [press release](#).
