

COVID-19: Cases in Singapore

An update of the latest confirmed cases in Singapore

min read | Published on 13 Jun 2020

As of 13 June 2020, 12pm, the Ministry of Health (MOH) has confirmed 347 new cases of COVID-19 infection in Singapore.

Among the cases:

- Imported cases: **0**
- Cases in the community: **5**
 - 2 Singaporeans, 3 Work Permit holders
- Cases residing in dormitories: **342**

Of new cases, 99% are linked to known clusters, the rest are pending contact tracing.

786 more cases of COVID-19 infection have been discharged from hospitals or community isolation facilities. To date, 28,808 have fully recovered from the infection and have been discharged from hospitals or community isolation facilities.

Most of the 228 confirmed cases who are still in hospital are stable or improving. 1 is in critical condition in the intensive care unit.

11,135 cases who have mild symptoms, or are clinically well but still test positive for COVID-19 are isolated and cared for at community facilities.

A 73 year-old male Singapore Citizen, has passed away from complications due to COVID-19 infection on 12 June 2020. He was confirmed to have COVID-19 infection on 9 March, and had a history of hypertension, hyperlipidaemia and chronic kidney disease. The National Centre for Infectious Diseases has reached out to his family and is extending assistance to them.

26 have passed away from complications due to COVID-19 infection.
