

COVID-19: Cases in Singapore

An update of the latest confirmed cases in Singapore

min read | Published on 11 Jul 2020

As of 11 July 2020, 12pm, the Ministry of Health (MOH) has confirmed 170 new cases of COVID-19 infection in Singapore.

Among the cases:

- Imported case: **1**
 - 1 Work Pass holder

There is an imported case today involving an Indian national who returned to Singapore from India on 6 July. She is a Work Pass holder who is currently employed in Singapore. She had been placed on 14-day Stay-Home Notice (SHN) upon arrival in Singapore, and had been tested while serving SHN.

- Cases in the community: **24**
 - 7 Singaporeans, 6 Work Pass holders, 11 Work Permit holders

Of the 24 cases in the community, 19 were picked up as a result of MOH's proactive surveillance and screening, and 5 had already been placed on quarantine earlier. 20 of the cases are asymptomatic, and were all detected through our proactive testing. 15 of the community cases are linked to previous cases or clusters, 9 are currently unlinked.

- Cases residing in dormitories: **145**

Of the new cases, 94% are linked to known clusters, the rest are pending contact tracing.

246 more cases of COVID-19 infection have been discharged from hospitals or community isolation facilities. To date, 42,026 have fully recovered from the infection and have been discharged from hospitals or community isolation facilities.

Most of the 192 confirmed cases who are still in hospital are stable or improving. 1 is in critical condition in the intensive care unit.

3,539 cases who have mild symptoms, or are clinically well but still test positive for COVID-19 are isolated and cared for at community facilities.

26 have passed away from complications due to COVID-19 infection.
