Listen

As of 26 July 2020, 12pm, the Ministry of Health (MOH) has confirmed 481 new cases of COVID-19 infection in Singapore.

Among the cases:

- Imported case: **4**
 - 2 Singaporeans/Permanent Residents, 2 Work Permit holders

Amongst the 4 imported cases, 2 are Singaporeans/ Permanent Residents who returned to Singapore from Indonesia on 24 July. The remaining 2 cases are Work Permit holders who arrived from the Philippines on 14 July. All of them had been placed on 14-day Stay-Home Notice (SHN) upon arrival in Singapore, and had been tested while serving their SHN.

- Cases in the community: **5**
 - 1 Work Pass holder, 4 Work Permit holders

Of the 5 cases in the community, 3 were picked up as a result of our proactive surveillance and screening, and 2 had already been placed on quarantine earlier. All 5 cases are asymptomatic, and were detected through our proactive testing.

Overall, the number of new cases in the community has decreased, from an average of 10 cases per day in the week before, to an average of 7 per day in the past week. The number of unlinked cases in the community has also decreased, from an average of 5 cases per day in the week before, to an average of 4 per day in the past week.

- Cases residing in dormitories: **472**

Of the new cases, 98% are linked to known clusters, the rest are pending contact tracing.

169 more cases of COVID-19 infection have been discharged from hospitals or community isolation facilities. To date, 45,521 have fully recovered from the infection and have been discharged from hospitals or community isolation facilities.

Most of the 173 confirmed cases who are still in hospital are stable or improving. None is in the intensive care unit.

4,648 cases who have mild symptoms, or are clinically well but still test positive for COVID-19 are isolated and cared for at community facilities.

27 have passed away from complications due to COVID-19 infection.
