What is COVID-19?

On 31 December 2019, the World Health Organization (WHO) reported a cluster of pneumonia cases in Wuhan City, China. 'Severe Acute Respiratory Syndrome Coronavirus 2' (SARS-CoV-2) was confirmed as the causative agent of what we now know as 'Coronavirus Disease 2019' (COVID-19). Since then, the virus has spread to more than 100 countries, including South Africa.

State of National Disaster Regulations – Extended Lockdown

THIS IS AN IMPORTANT WEEK

10-16 April

If we reach more than 90 new cases per day, lockdown will continue.

(Average new daily cases last week was 67)

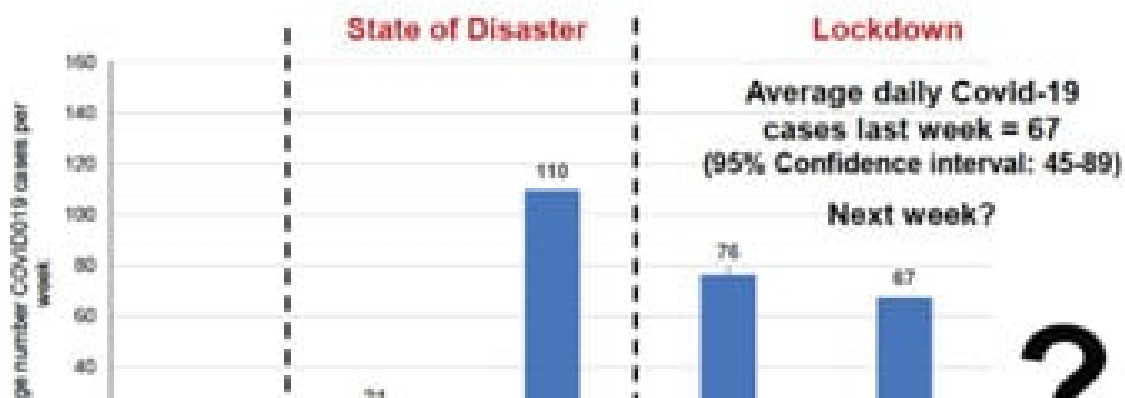

STAY HOME

SAVE SOUTH AFRICA

TOGETHER WE CAN BEAT THE CORONAVIRUS

What should we do this week?

Follow the lockdown rules and monitor community transmission by average daily cases & community positivity/screened

This is an important week #FlattenTheCurve

SA's Covid-19 epidemic: Trends & Next steps
