SWISS-MADE CONTACT TRACING COVID APP: OPERATIVE AND DATA SAFE

Switzerland.

IN USE
Around 15,000 beta users are testing the app during the current pilot phase.

WORDLWIDE
Switzerland is the first country in the world to use APIs from Google and Apple for its contact tracing app.

SAFE
The SwissCovid app lets you know if you have been closer than 2m for more than 15 minutes to someone tested positive for the coronavirus.

TRANSPARENT
The SwissCovid app is open source.

INNOVATIV
The SwissCovid app was jointly developed by the Swiss federal institutes of technology in Lausanne and Zurich (EPFL and ETHZ) and Swiss tech company Ubique.

TRUSTED
70 % of the population welcome the app; around 59 % plan to install it. After the test phase, parliament will decide if the SwissCovid app can be introduced.

ANONYMOUS
Data is only stored on your smartphone.

RESPONSIBLE
If a person gets tested positive, they can enter an activation code in the app and warn other app-users.
