The figure displays the spatial and temporal distribution of COVID-19 cases in Switzerland across four time points: T0, T1, T2, and T3. The top row shows four maps of Switzerland, and the bottom row shows four bar charts. The data is presented in a grid format with columns for each time point and rows for each map/chart.

Top Row: Maps of Switzerland

- T0:** Shows the initial distribution of cases, with a concentration in the western part of the country.
- T1:** Shows a more widespread distribution of cases, with a significant increase in the eastern part of the country.
- T2:** Shows a further increase in cases, with a significant concentration in the northern part of the country.
- T3:** Shows a highly concentrated distribution of cases, with a significant concentration in the northern part of the country.

Bottom Row: Bar Charts

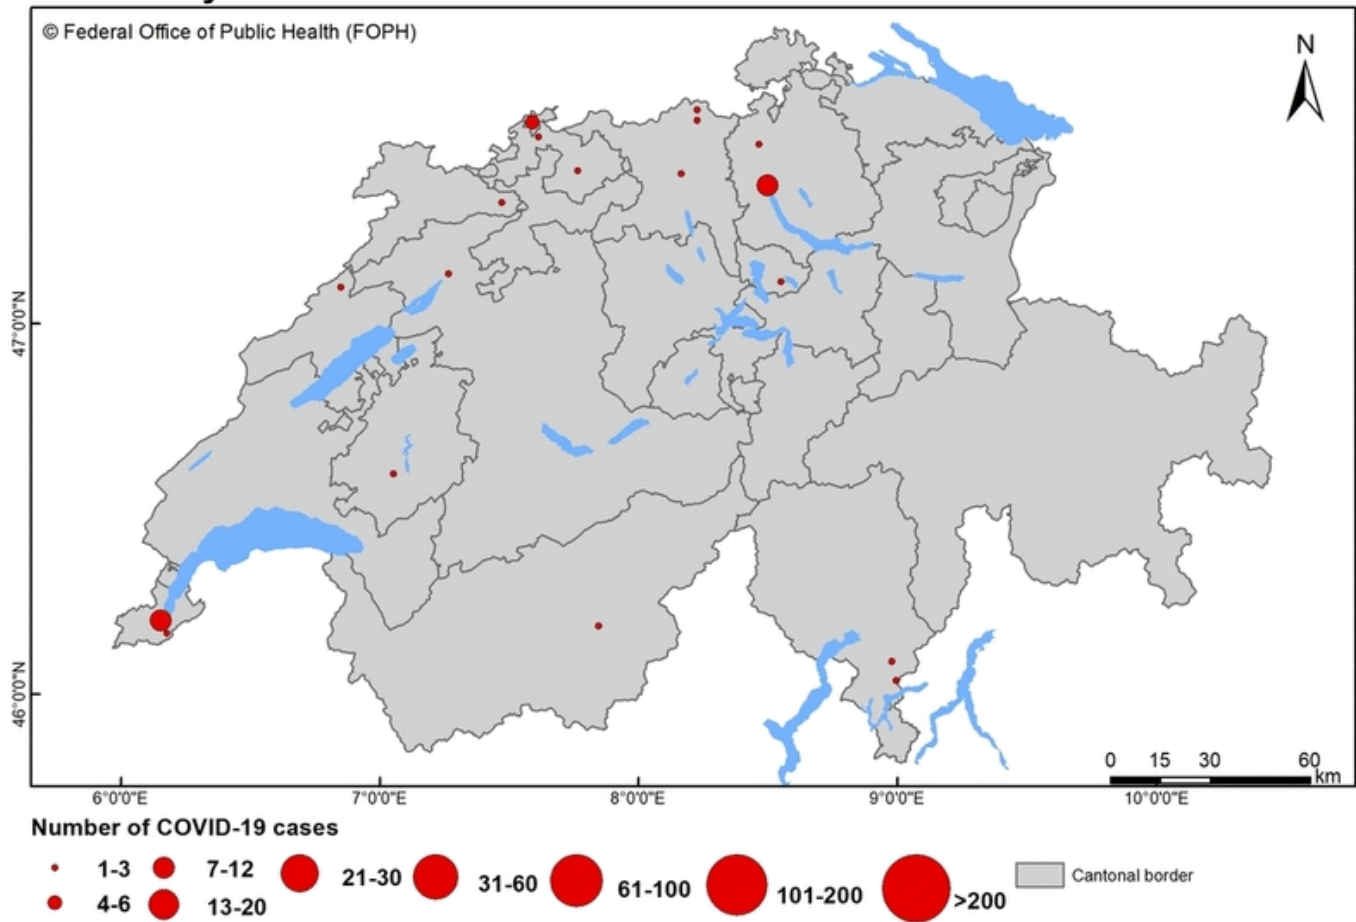

- T0:** Shows the daily number of cases, with a peak in the first week of the pandemic.
- T1:** Shows a significant increase in the daily number of cases, with a peak in the second week of the pandemic.
- T2:** Shows a further increase in the daily number of cases, with a peak in the third week of the pandemic.
- T3:** Shows a highly concentrated distribution of cases, with a significant peak in the fourth week of the pandemic.
