Figure 1 displays four maps of Switzerland, showing the spatial distribution of COVID-19 cases by canton for different dates: 2020-03-15, 2020-04-15, 2020-05-15, and 2020-06-15. The maps use a color scale from blue (low cases) to red (high cases). The number of cases per canton is displayed on each map. The maps show a progression from low case counts in March to high case counts in June, with a notable peak in the central and western regions in June.
