Figure 1 displays four maps of Switzerland, each showing the spatial distribution of forest fires across the 26 cantons. The maps are categorized by fire type: (a) All forest fires, (b) Low-intensity fires, (c) High-intensity fires, and (d) High-intensity fires with a fire alarm. The number of fires in each canton is indicated by a number in a box. The maps show that high-intensity fires are concentrated in the western and central regions, while low-intensity fires are more widespread. The map for high-intensity fires with a fire alarm shows a similar pattern to the high-intensity fires map, but with fewer fires overall.
