Figure 1 displays four maps of Switzerland, illustrating the spatial distribution of COVID-19 cases by municipality for different dates: 2020-03-16, 2020-04-16, 2020-05-16, and 2020-06-16. The maps use a color scale to represent the density of cases, with lighter shades indicating lower density and darker shades indicating higher density. The distribution shows a clear progression of the epidemic over time, with cases becoming more widespread and concentrated in certain regions.
