Figure 1 displays four maps of Switzerland, each showing the spatial distribution of COVID-19 cases by canton for a specific date in 2020. The maps are arranged vertically, representing the progression of the pandemic over time. The top map (2020-03-19) shows a very low number of cases, with most cantons in blue. The second map (2020-04-19) shows a slight increase in cases, with some cantons turning light blue. The third map (2020-05-19) shows a significant increase in cases, with many cantons turning yellow and orange. The bottom map (2020-06-19) shows a high density of cases, with many cantons in red, indicating a high number of cases. The maps illustrate the spatial spread and increasing intensity of the pandemic over time.

Laboratory confirmed COVID-19 cases for week 9
