Figure 1 displays four maps of Switzerland, each showing the spatial distribution of COVID-19 cases by municipality for a specific date: March 16, April 16, May 16, and June 16, 2020. Each map is accompanied by a bar chart showing the number of cases per municipality. The maps illustrate the progression of the pandemic, showing a significant increase in the number of municipalities with cases over time, particularly in the latter half of 2020.
