PUBLICATION - TRANSPARENCY DATA

Coronavirus (COVID-19): daily data for Scotland

Published: **13 May 2020**

Directorate: [Chief Medical Officer Directorate](#) Part of: [Coronavirus in Scotland, Health and social care](#)

Numbers of reported cases, deaths, patients in hospital and other management information such as number of 111 calls.

Scottish COVID-19 test numbers: 13 May 2020

A total of 77,750 people in Scotland have been tested through NHS labs to date. Of these:

- 63,821 were confirmed negative
- 13,929 were positive
- 1,973 patients who tested positive have died

These figures will be an underestimate. Not everyone with COVID-19 will display symptoms and not all those with symptoms will be tested.

Management information reported by NHS Boards shows:

- 70 patients with confirmed or suspected COVID-19 were in intensive care last night, with 68 of those having tested positive
- there were 1,101 people in Scottish hospitals with confirmed COVID-19 (including those in intensive care), and a further 433 where it was suspected

| Health Board | Total confirmed cases to date | People in hospital at midnight (confirmed) | People in intensive care at midnight (confirmed or suspected) |
|--------------|-------------------------------|--|---|
| | | | |

| | | | |
|----------------------------------|------|-----|----|
| Ayrshire and Arran | 946 | 39 | 7 |
| Borders | 297 | 27 | * |
| Dumfries and Galloway | 254 | * | * |
| Fife | 816 | 75 | * |
| Forth Valley | 859 | 25 | * |
| Grampian | 1123 | 97 | 9 |
| Greater Glasgow and Clyde | 3579 | 486 | 27 |
| Highland | 324 | 5 | * |
| Lanarkshire | 1721 | 106 | 6 |
| Lothian | 2428 | 206 | 6 |
| Orkney | 7 | * | * |
| Shetland | 54 | * | * |
| Tayside | 1515 | 27 | * |
| Eileanan Siar (Western Isles) | 6 | * | * |
| Golden Jubilee National Hospital | * | 6 | 6 |

Note: hospital numbers are by location of hospital, not residence.

* = less than five

Numbers in hospital were previously reported in this table as the total of confirmed and suspected. However from 5 May onwards these are confirmed only. This is due to discontinuity in suspected cases due to increased levels of screening. .

Other daily management information

On 12 May there were:

- 3,591 tests carried out by NHS Scotland in hospitals, care homes or the community, making a total of 107,252 COVID-19 tests through NHS labs to date.
- In addition, there were 1,517 drive through and mobile tests carried out by the Regional Testing Centres in Scotland bringing the total to 30,708 tests to date.

- 2,883 calls to 111 and 293 calls to the Coronavirus Helpline. The number of calls to 111 includes all calls, whether or not they relate to COVID-19.
- 1,455 Scottish Ambulance Service (SAS) attendances, of which 311 were for suspected COVID-19. SAS took 195 people to hospital with suspected COVID-19.
- 436 (41%) adult care homes with a current case of suspected COVID-19. At least one resident in the care home has exhibited symptoms during the last 14 days.
- 620 (57%) adult care homes which have lodged at least one notification for suspected COVID-19 to the Care Inspectorate since the start of the epidemic. 448 of these care homes have reported more than one case of suspected COVID-19.
- 4,738 cumulative cases of suspected COVID-19 in care homes. This is an increase of 95 suspected cases on the previous day.
- a total of 5,935 staff, or around 3.6% of the NHS workforce, reporting as absent due to a range of reasons related to COVID-19.
- 3,225 inpatients have been discharged from hospital since 5 March, who had been tested positive for COVID-19, up from yesterday's total of 3,167.
- 632 people delayed in hospital as at 12 May. This is 980 less than the baseline period (04/03 weekly return). An initial target to reduce delays by 400 by the end of March and a further target of reducing by a further 500 by the end of April have now been met.
- 3,672 staff were reported as absent in adult care homes due to COVID-19, based on returns received from 822 (76%) adult care homes as at 5 May. Staff absent due to COVID-19 represents 8.5% of all adult care home staff (43,403) for whom a return was provided. The absence figures for NHS staff and care home staff are calculated in different ways and caution should be exercised in making comparisons – see the [data sources and definitions document](#) for full details. This data will be updated weekly.

Deaths of health and social care workers related to COVID-19

As at 12 May, we have been notified by Health Boards or the Care Inspectorate of 7 deaths of healthcare workers and 8 deaths of social care workers, related to COVID-19. We are not able to confirm how many of these staff contracted COVID-19 through their work. We will update this information every Wednesday.

How this data is reported and other data sources

The latest numbers will publish at 2pm each day.

COVID-19 deaths

A weekly report on COVID-19 related deaths (including those where COVID-19 is suspected) is available from National Records of Scotland (NRS).

This report provides a breakdown of deaths by age, sex, setting (hospital, care home or home) and area (NHS Board area and Local Authority). It is updated every Wednesday.

People affected by COVID-19

Public Health Scotland reports on the demographic characteristics (age, sex, deprivation) of people affected by COVID-19. It also looks at some of the wider impacts of the virus on the healthcare system, comparing recent trends in activity with historic norms. It is updated every Wednesday.
