Coronavirus (COVID-19): daily data for Scotland

Published: **18 Jun 2020**

Directorate: [Chief Medical Officer Directorate](#)

Part of: [Coronavirus in Scotland, Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 18 June 2020

- 11 new confirmed cases of COVID-19*
- 2 new reported deaths of people who have tested positive

* as of 15 June this includes confirmed cases where people have been tested through the UK Government (UKG) testing programme as well as those through NHS Scotland labs.

A total of 220,198 people in Scotland have been tested through NHS Scotland labs and UKG to date. Of these:

- 202,121 were confirmed negative
- 18,077 were positive

This will be an underestimate of the number of cases. Not everyone with the virus will display symptoms and not all those with symptoms will be tested.

Of the people who have tested positive:

- 3,941 inpatients have been discharged from hospital since 5 March
- 547 were in hospital last night: 9 of whom were in intensive care; plus 14 more people in intensive care with suspected COVID-19
- 2,464 have died

Previous data for the figures reported are available at: [Trends in daily data](#).

Data by health board

Health board	Total confirmed cases to date	People in hospital at midnight (confirmed)	People in intensive care at midnight (confirmed or suspected)
Ayrshire and Arran	1,245	*	*
Borders	345	*	*
Dumfries and Galloway	274	*	*
Fife	928	57	*
Forth Valley	1,053	7	*
