PUBLICATION - TRANSPARENCY DATA

Coronavirus (COVID-19): daily data for Scotland

Published: 16 Jul 2020

Directorate: Chief Medical Officer Directorate

Part of: Coronavirus in Scotland, Health and social care

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 16 July 2020

- 11 new confirmed cases of COVID-19
- 1 new reported death(s) of people who have tested positive

A total of 310,644 people in Scotland have been tested through NHS Scotland labs and UK Government Labs to date. Of these:

- 292,260 were confirmed negative
- 18,384 were positive

This will be an underestimate of the number of cases. Not everyone with the virus will display symptoms and not all those with symptoms will be tested.

Of the people who have tested positive:

- 4,138 inpatients have been discharged from hospital since 5 March
- 320 were in hospital last night: 3 of whom were in intensive care; plus 3 more people in intensive care with suspected COVID-19
- 2,491 have died

Previous data for the figures reported are available at: <u>Trends in daily data</u>.

Data by health board

Health Board	Total confirmed cases to date	People in hospital at midnight (confirmed)	People in intensive care at midnight (confirmed or suspected)
Ayrshire and Arran	1,260	*	*
Borders	345	*	*
Dumfries and Galloway	299	*	*
Fife	933	*	*
Forth Valley	1,088	*	*
Grampian	1,432	29	*
Greater Glasgow and	4.896	184	*
