## PUBLICATION - TRANSPARENCY DATA

# Coronavirus (COVID-19): daily data for Scotland

Published: **16 Sep 2020**

Directorate: [Chief Medical Officer Directorate](#)

Part of: [Coronavirus in Scotland, Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

## Scottish numbers: 16 September 2020

- 267 new confirmed cases of COVID-19; this is 3.6% of newly tested individuals (may not reflect the total number of new cases\*).
- 1 new reported death(s) of people who have tested positive.
- 6 people were in intensive care last night with recently confirmed COVID-19.
- 51 people were in hospital with recently confirmed COVID-19.
- 12,696 new tests for COVID-19 that reported results (may not reflect the total number of new tests\*).

\* The data reported today may be incomplete as a result of a backlog of test results accumulated in the UK lab network. Work is underway to urgently address this issue.

## Figures by health board area

- COVID-19 positive cases and patients in hospital at both Scotland level and Health Board level are available in published excel files - [Trends in daily data](#)
- further information is provided in the [Public Health Scotland dashboard](#) . This now provides trend information for Health Board areas and local authorities

## Weekly figures

- positive tests: week ending 16 September: 46,947\* people newly tested – 1,405\* positive.
- number of tests: 108,430\* tests reported week ending 16 September.
- care homes: as at 09 September: 78 (7%) adult care homes with a current case of suspected COVID-19
- care homes confirmed cases: 0 new positive COVID-19 cases among care home residents for week 31 August - 6 September
- care homes testing: week ending 10 September: At least 917 individual care home staff, and 299 residents were tested in care homes with a confirmed case of COVID-19. At least 36,115 individual care home staff, and 1,545 residents were tested in care homes with no confirmed cases of COVID-19. [Health Board data is available](#)
- hospital admissions: week ending 7 September: 21 COVID-19 patients were admitted to hospital.
- deaths: week ending 13 September: 5 deaths were registered where COVID-19 was on the death certificate.
- delayed discharges: As at 09 September: 1,036 people were delayed in hospital.
- NHS staff absence: week ending 16 September: On average, 1,526 NHS staff, or around 0.9% of the NHS workforce, reported absent each day for a range of reasons related to COVID-19.
- care homes staff absence: week ending 08 September: 548 staff were reported as absent in adult care homes due to COVID-19, based on returns received from 825 (76%) adult care homes. Staff absent due to COVID-19 represents 1.3% of all adult care home staff (43,053) for whom a return was provided. The absence figures for NHS staff and care home staff are calculated in different ways and caution should be exercised in making comparisons
