Coronavirus (COVID-19): daily data for Scotland

Published: 10 Jun 2020

Directorate: Chief Medical Officer Directorate

Part of: Coronavirus in Scotland, Health and social care

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 10 June 2020

- 12 new confirmed cases of COVID-19
- 12 new reported deaths of people who have tested positive

A total of 130,104 people in Scotland have been tested through NHS labs to date. Of these:

- 114, 439 were confirmed negative
- 15,665 were positive

This will be an underestimate of the number of cases. Not everyone with the virus will display symptoms and not all those with symptoms will be tested.

Of the people who have tested positive:

- 3,839 inpatients have been discharged from hospital since 5 March
- 623 were in hospital last night: 15 of whom were in intensive care; plus 3 more people in intensive care with suspected COVID-19
- · 2,434 have died

Previous data for the figures reported are available at: <u>Trends in daily data</u>.

Data by health board

Health Board	Total confirmed cases to date	People in hospital at midnight (confirmed)	People in intensive care at midnight (confirmed or suspected)
Ayrshire and Arran	1,081	8	*
Borders	327	*	*
Dumfries and Galloway	261	*	*
Fife	880	53	*
Forth Valley	948	9	*
Grampian	1,287	60	*
