PUBLICATION - TRANSPARENCY DATA

Coronavirus (COVID-19): daily data for Scotland

Published: **17 Jun 2020**

Directorate: [Chief Medical Officer Directorate](#)

Part of: [Coronavirus in Scotland, Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 17 June 2020

- 21 new confirmed cases of COVID-19*
- 9 new reported deaths of people who have tested positive

*as of 15 June this includes confirmed cases at UK Government Regional Testing Centres (RTCs).

A total of 216,743 people in Scotland have been tested through NHS Scotland labs and RTCs to date. Of these:

- 198,677 were confirmed negative
- 18,066 were positive

This will be an underestimate of the number of cases. Not everyone with the virus will display symptoms and not all those with symptoms will be tested.

Of the people who have tested positive:

- 3,932 inpatients have been discharged from hospital since 5 March
- 553 were in hospital last night: 11 of whom were in intensive care; plus 13 more people in intensive care with suspected COVID-19
- 2,462 have died

Previous data for the figures reported are available at: [Trends in daily data](#).

Data by health board

Health board	Total confirmed cases to date	People in hospital at midnight (confirmed)	People in intensive care at midnight (confirmed or suspected)
Ayrshire and Arran		*	*
Borders		*	*
Dumfries and Galloway		*	*
Fife		56	*
Forth Valley		6	*
