PUBLICATION - TRANSPARENCY DATA

Coronavirus (COVID-19): daily data for Scotland

Published: **9 Jul 2020**

Directorate: [Chief Medical Officer Directorate](#)

Part of: [Coronavirus in Scotland, Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 9 July 2020

- 6 new confirmed cases of COVID-19
- 0 new reported death(s) of people who have tested positive

A total of 289,646 people in Scotland have been tested through NHS Scotland labs and UK Government Labs to date. Of these:

- 271,331 were confirmed negative
- 18,315 were positive

This will be an underestimate of the number of cases. Not everyone with the virus will display symptoms and not all those with symptoms will be tested.

Of the people who have tested positive:

- 4,116 inpatients have been discharged from hospital since 5 March
- 342 were in hospital last night: 3 of whom were in intensive care; plus 6 more people in intensive care with suspected COVID-19
- 2,490 have died

Previous data for the figures reported are available at: [Trends in daily data](#).

Data by health board

Health Board	Total confirmed cases to date	People in hospital at midnight (confirmed)	People in intensive care at midnight (confirmed or suspected)
Ayrshire and Arran	1,257	*	*
Borders	345	*	*
Dumfries and Galloway	296	*	*
Fife	932	*	*
Forth Valley	1,085	6	*
Grampian	1,427	33	*
