## PUBLICATION - TRANSPARENCY DATA

# Coronavirus (COVID-19): daily data for Scotland

Published: **10 Sep 2020**

Directorate: [Chief Medical Officer Directorate](#)

Part of: [Coronavirus in Scotland, Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

## Scottish numbers: 10 September 2020

- 161 new confirmed cases of COVID-19; this is 1.9% of newly tested individuals.
- no new reported death(s) of people who have tested positive.
- 7\* people were in intensive care last night with confirmed COVID-19.
- 266\* people were in hospital with confirmed COVID-19.
- 17,012 new tests for COVID-19 that reported results.

\* This figure includes people who are no longer being treated for COVID-19. This is being reviewed and will soon be replaced with a measure that focuses on hospital in-patients with a more recent positive COVID-19 test.

## Figures by health board area

- COVID-19 positive cases and patients in hospital at both Scotland level and Health Board level are available in published excel files - [Trends in daily data](#)
- further information is provided in the [Public Health Scotland dashboard](#) . This now provides trend information for Health Board areas and local authorities

## Weekly figures

- positive tests: week ending 10 September: 59,338 people newly tested – 1,150 positive
- number of tests: 115,488 tests reported week ending 10 September.
- care homes: as at 09 September: 78 (7%) adult care homes with a current case of suspected COVID-19.
- care homes confirmed cases: 0 new positive COVID-19 cases among care home residents for week 31 August - 6 September.
- care homes testing: week ending 3 September: At least 880 individual care home staff, and 258 residents were tested in care homes with a confirmed case of COVID-19. At least 35,980 individual care home staff, and 1,307 residents were tested in care homes with no confirmed cases of COVID-19. [Health Board data is available](#)
- hospital admissions: week ending 2 September: 18 COVID-19 patients were admitted to hospital.
- deaths: week ending 6 September: 2 deaths were registered where COVID-19 was on the death certificate.
- delayed discharges: As at 09 September: 1,036 people were delayed in hospital.
- NHS staff absence: week ending 9 September: On average, 1,585 NHS staff, or around 0.9% of the NHS workforce, reported absent each day for a range of reasons related to COVID-19.
- care homes staff absence: week ending 08 September: 548 staff were reported as absent in adult care homes due to COVID-19, based on returns received from 825 (76%) adult care homes. Staff absent due to COVID-19 represents 1.3% of all adult care home staff (43,053) for whom a return was provided. The absence figures for NHS staff and care home staff are calculated in different ways and caution should be exercised in making comparisons.
