## PUBLICATION - TRANSPARENCY DATA

# Coronavirus (COVID-19): daily data for Scotland

Published: **24 Sep 2020**

Directorate: [Chief Medical Officer Directorate](#)

Part of: [Coronavirus in Scotland, Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

## Scottish numbers: 24 September 2020

- 465 new cases of COVID-19 reported; this is 7.9% of newly tested individuals.
- 2 new reported death(s) of people who have tested positive.
- 10 people were in intensive care yesterday with recently confirmed COVID-19.
- 84 people were in hospital with recently confirmed COVID-19.
- 15,362 new tests for COVID-19 that reported results.

## Figures by health board area

- COVID-19 positive cases and patients in hospital at both Scotland level and Health Board level are available in published excel files - [Trends in daily data](#)
- further information is provided in the [Public Health Scotland dashboard](#) . This now provides trend information for Health Board areas and Local Authorities

## Weekly figures

- new cases reported: week ending 24 September: 36,971 people newly tested – 2,387 positive.
- number of tests: 108,370 tests reported week ending 24 September (20 tests per 1,000 population).
- care homes: as at 23 September: 95 (9%) adult care homes with a current case of suspected COVID-19.
- care homes confirmed cases: 9 new positive COVID-19 cases among care home residents for week 14 - 20 September.
- care homes testing: week ending 17 September: At least 2,161 individual care home staff, and 510 residents were tested in care homes with a confirmed case of COVID-19. At least 34,934 individual care home staff, and 1,765 residents were tested in care homes with no confirmed cases of COVID-19. [Health Board data is available](#)
- hospital admissions: week ending 16 September: 58 COVID-19 patients were admitted to hospital.
- deaths: week ending 20 September: 11 deaths were registered where COVID-19 was on the death certificate
- delayed discharges: As at 23 September: 1,044 people were delayed in hospital.
- NHS staff absence: week ending 22 September: On average, 1,523 NHS staff, or around 0.9% of the NHS workforce, reported absent each day for a range of reasons related to COVID-19.
- care homes staff absence: week ending 22 September: 504 staff were reported as absent in adult care homes due to COVID-19, based on returns received from 792 (73%) adult care homes. Staff absent due to COVID-19 represents 1.2% of all adult care home staff (41,727) for whom a return was provided. The absence figures for NHS staff and care home staff are calculated in different ways and caution should be exercised in making comparisons.
- shielding: as at 3 August, 180,228 people who were identified as at high clinical risk of COVID-19 had been advised to shield up to the end of July. At that time, there had been 5,426 deaths (from all causes) of those who had been advised to shield. Shielding has been paused since the beginning of August
