Coronavirus (COVID-19): daily data for Scotland

Published: 17 Oct 2020

Directorate: [Chief Medical Officer Directorate](#) Part of: [Coronavirus in Scotland, Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 17 October 2020

Summary

- 1,167 new cases of COVID-19 reported; this is 17.6%* of newly tested individuals
- 15 new reported death(s) of people who have tested positive
- 62 people were in intensive care yesterday with recently confirmed COVID-19**
- 675 people were in hospital yesterday with recently confirmed COVID-19**
- 15,089 new tests for COVID-19 that reported results

* the approach used to calculate this percentage using only newly tested individuals is under review. Further information is provided on the [Data definitions and sources](#) webpage.

**these figures are provisional, as they have not been updated for NHS Highland

Local area data

- Public Health Scotland's [interactive dashboard](#)  now provides a map showing the number of cases in local areas, as well as trends for local authorities and NHS boards
