

Guidelines on corona virus (Covid-19) Pandemic

SITUATION UPDATES

More Updates on COVID-19

1.A 31 year old male who arrived from Dubai on 20th March 2020 and is currently under quarantine. He presented with signs and symptoms of COVID-19.
 2.A 23 year old male who arrived from United Kingdom via Netherlands and is currently under quarantine. He presented with signs and symptoms of nausea, cough and fever.
 3.A 48 year old female who arrived from the United States of America, via isolated and is currently under quarantine. She presented with symptoms consistent with COVID-19: cough and flu.
 4.A 55 year old male arrived from Afghanistan on 20th March 2020 and is currently under quarantine. He presented with signs and symptoms of COVID-19.

All the previously confirmed 18 cases are in stable clinical condition and feeling well at Geriatric Grade 8, Mulago National Specialized Hospital and Adjumani General Hospital.

To date, a total 1,284 are under follow up: 811 of these are under institutional quarantine while 473 are under self quarantine. A total of 1,517 high risk travellers have completed their 14 days of follow up and have been issued with certificates of completion of the mandatory quarantine.

COVID-19 presents with the following signs and symptoms: running nose (flu), cough, fever and difficulty in breathing. To report any suspected cases of COVID-19, call the Ministry of Health toll free line on 924, 9250-100-966, 040-20-919 or 0800-909-495.

In the same vein, the Ministry continues to ensure that all travellers are screened for COVID-19 at the points of entry.

HEALTH TIPS

Wash you hands daily with the soap

Wear a mask if you are coughing or
sneezing.

If you wear a mask, then you must
know how to use it and dispose of it
properly.
