THE DO'S AND DON'TS ON CORONAVIRUS DISEASE (COVID-19)

BACKGROUND
An outbreak of Coronavirus Disease (COVID-19) was declared by the World Health Organization (WHO) on 11th January, 2020. This outbreak has now spread to all continents and all countries and remains infectious. Many others may be affected too.

In Africa, Algeria, Egypt and Nigeria have already reported cases. The possibility of spread to other African countries through travellers is extremely high. Uganda has no case of COVID-19. It is important that the population remains on high alert and diligently observe precautionary measures to avoid contracting the disease.

The Ministry of Health has developed the following do's and don'ts to educate the public on how to avoid contracting the disease.

WHAT IS CORONAVIRUS DISEASE (COVID-19)?
