#### Daily COVID-19 cases in London

## People in hospital with COVID-19

#### Daily announced COVID-19 deaths in London hospitals

NHS England announces the number of patients who have died in hospitals in England and had either tested positive for COVID-19 or where COVID-19 was mentioned on the death certificate.

NHS England figures are updated at 2pm each day and include confirmed death cases reported at 4pm the previous day. Confirmation of COVID-19 diagnosis, death notification, death certificates and reporting in central figures can take up to several days and the hospitals providing the data are under significant operational pressure. This means that the totals reported at 4pm on each day may not include all deaths that occurred on that day or on recent prior days.

	London (positive test)	London (no positive test)	Total deaths
09 Sep	16	3	19
08 Sep	8	1	9
07 Sep	33	0	33
06 Sep	0	0	0
05 Sep	0	0	0
04 Sep	11	1	12
03 Sep	15	2	17
02 Sep	18	1	19

## Daily COVID-19 deaths in London hospitals by date of occurrence

The figure below shows the number of COVID-19 deaths in London hospitals on the date the deaths occurred. This data differs from the number of deaths announced per day due to the time lag between date of death and reporting. Recent data is likely to be revised upwards.
