## Coronavirus (COVID-19): what you need to do

## Stay at home

- Only go outside for food, health reasons or work (where this absolutely cannot be done from home)
- Stay 2 metres (6ft) away from other people
- Wash your hands as soon as you get home

You can spread the virus even if you don't have symptoms.

**Number of cases** 

As of 9am on 24 March 2020, a total of 90,436 people have been tested, of which 82,359 were confirmed negative and 8,077 were confirmed positive. 422 patients in the UK who tested positive for coronavirus (COVID-19) have died.

### Cases identified in England

Confirmed cases in each local authority and NHS region are published by Public Health England (PHE).

#### Risk level

The risk to the UK has been raised to high.

## **Recent government action**

The government published its <u>coronavirus action plan</u> on 3 March.

On 10 February, the Secretary of State for Health and Social Care, Matt Hancock, announced trengthened legal powers to protect public health.

<u>The Health Protection (Coronavirus) Regulations 2020</u> have been put in place to reduce the risk of further human-to-human transmission in this country by keeping individuals in isolation where public health professionals believe there is a reasonable risk an individual may have the virus.
