Coronavirus (COVID-19): what you need to do

### Stay at home

- Only go outside for food, health reasons or work (but only if you cannot work from home)
- Stay 2 metres (6ft) away from other people
- Wash your hands as soon as you get home

You can spread the virus even if you don't have symptoms.

**Number of cases** 

As of 9am on 26 March 2020, a total of 104,866 people have been tested, of which 93,208 were confirmed negative and 11,658 were confirmed positive.

As of 5pm on 25 March 2020, 578 patients in the UK who tested positive for coronavirus (COVID-19) have died.

### Cases identified in England

Confirmed cases in each local authority and NHS region are published by Public Health England (PHE).

#### Risk level

The risk to the UK has been raised to high.

## Recent government action

The government published its coronavirus action plan on 3 March.

On 10 February, the Secretary of State for Health and Social Care, Matt Hancock, announced trengthened legal powers to protect public health.

<u>The Health Protection (Coronavirus) Regulations 2020</u> have been put in place to reduce the risk of further human-to-human transmission in this country by keeping individuals in isolation where public health professionals believe there is a reasonable risk an individual may have the virus.
