Coronavirus (COVID-19): daily data for Scotland

Published: **22 Dec 2020**

Directorate: [Chief Medical Officer Directorate](#)

Part of: [Coronavirus in Scotland](#), [Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 22 December 2020

Summary

- 1,316* new cases of COVID-19 reported
- 43 new reported death(s) of people who have tested positive
- 60 people were in intensive care yesterday with recently confirmed COVID-19
- 1,045 people were in hospital yesterday with recently confirmed COVID-19
- 19,547 new tests for COVID-19 that reported results – 7.5% of these were positive

Local area data

- Public Health Scotland's [interactive dashboard](#)  now provides a map showing the number of cases in local areas, as well as trends for local authorities and NHS boards

* The increased number of new cases in the past few days may have been affected by backlog issues at UK Government laboratories over the weekend. The backlog has reduced but is also likely to have affected today's figures.
