**(+)** 

This is updated each day to provide the latest available data on COVID-19 in Scotland.

## Scottish numbers: 4 January 2021

## **Summary**

- 1,905 new cases of COVID-19 reported
- 13,810 new tests for COVID-19 that reported results 15.0% of these were positive

During 1 to 4 January, daily updates will be published to provide the latest data on the number of new cases of COVID-19 and the test positivity rate. During this period (1 to 4 January) there will be no updates to the remaining statistics – you can access the latest available data in the sections below and in the <u>trends excel file</u>. Following the next holiday weekend, we will update on Tuesday 5 January – we will provide the latest daily data for that day and the previous 4 days.

### Local area data

• Public Health Scotland's <u>interactive dashboard</u> now provides a map showing the number of cases in local areas, as well as trends for local authorities and NHS boards
