Coronavirus (COVID-19): daily data for Scotland

Published: **1 Feb 2021**

Directorate: Chief Medical Officer Directorate Part of: Coronavirus in Scotland, Health and social care

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 1 February 2021

Summary

- 848* new cases of COVID-19 reported

- 10,511* new tests for COVID-19 that reported results – 9.5% of these were positive

- 6 new reported death(s) of people who have tested positive (noting that Register Offices are now generally closed at weekends)

- 143 people are in intensive care with recently confirmed COVID-19

- 1,958 people are in hospital with recently confirmed COVID-19

- 575,897 people have received the first dose of the Covid vaccination and 7,849 have received their second dose

*Please note that no data has been received from the NHS Tayside laboratory since Saturday 30th January

Local area data

- Public Health Scotland's [interactive dashboard](#) ↗ now provides a map showing the number of cases in local areas, as well as trends for local authorities and NHS boards
