PUBLICATION - TRANSPARENCY DATA

Coronavirus (COVID-19): daily data for Scotland

Published: **21 Mar 2021**

Directorate: [Chief Medical Officer Directorate](#) Part of: [Coronavirus in Scotland, Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 21 March 2021

Summary

- 532 new cases of COVID-19 reported
- 21,010 new tests for COVID-19 that reported results – 2.9% of these were positive
- 0 new reported death(s) of people who have tested positive (Noting that registry offices are now generally closed at weekends)
- 31 people were in intensive care yesterday with recently confirmed COVID-19
- 344 people were in hospital yesterday with recently confirmed COVID-19
- 2,144,940* people have received the first dose of the Covid vaccination and 220,188 have received their second dose

* Vaccinations reported yesterday (20/03/2021) have been revised today (21/03/2021) due to connectivity issues when extracting the information from the database on 20/03/2021, which meant that lower vaccination figures were initially reported. No connectivity issues impact the reporting today (21/03/2021). The data has been updated in the [Trends in daily data](#) excel files.

Local area data

- Public Health Scotland's [interactive dashboard](#)  provides a map showing the number of cases in local areas, as well as trends for local authorities and NHS boards.
