Coronavirus (COVID-19): daily data for Scotland

Published: 4 Apr 2021

Directorate: Chief Medical Officer Directorate

Part of: Coronavirus in Scotland, Health and social care

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 4 April 2021

Summary

- 343 new cases of COVID-19 reported
- 14,164 new tests for COVID-19 that reported results 2.7% of these were positive
- 0 new reported death(s) of people who have tested positive
- 2,553,837 people have received the first dose of the covid vaccination and 451,057 have received their second dose

Over the Easter weekend (2-5 April), daily updates will be published to provide headline statistics on new cases, test positivity rate, deaths and vaccinations. There will be no updates to the remaining statistics. These will be updated on Tuesday 6 April – we will provide the latest detailed daily data for that day and the previous 4 days.

Local area data

• Public Health Scotland's <u>interactive dashboard</u> or provides a map showing the number of cases in local areas, as well as trends for local authorities and NHS boards.
