Coronavirus (COVID-19): daily data for Scotland

Published: 20 Oct 2020

Directorate: [Chief Medical Officer Directorate](#) Part of: [Coronavirus in Scotland, Health and social care](#)

This is updated each day to provide the latest available data on COVID-19 in Scotland.

Scottish numbers: 20 October 2020

Summary

- 1,456 new cases of COVID-19 reported; this is 19.9%* of newly tested individuals**
- 15 new reported death(s) of people who have tested positive (noting that Register Offices are now generally closed at weekends)
- 69 people were in intensive care yesterday with recently confirmed COVID-19
- 824 people were in hospital yesterday with recently confirmed COVID-19
- 14,107 new tests for COVID-19 that reported results - 11.4% of these were positive**

* We have reviewed the use of this percentage, and plan to focus in future on percent of tests that are positive. Please see [this article](#) for details.

** These figures may be affected by weekend delays in test results being processed.

Local area data

- Public Health Scotland's [interactive dashboard](#)  now provides a map showing the number of cases in local areas, as well as trends for local authorities and NHS boards
