Uptake figures now exclude data on those who have died from any cause. This planned development was applied retrospectively on 02/03/21 and has resulted in one-off increases in uptake in older age groups and in care home residents, as a result of cumulative data changes since reporting began in December 2020. This provides a more accurate picture of vaccination coverage in the current Wales residents population.

The figures for care home residents, age-groups and clinical raiks groups only include people who was recorded as Wales residents. The figures for care home staff, health care workers and social care workers may include people who work in Wales, but live elsewhere. Figures for care home residents and care home workers are based on care homes for cider adults. Age to lot of years in an artisk group of not include Clinically Extremely Vulnerable adults, data collection and collation for this group is still underway and there may be from the properties of the still result in the constant of the still results of the s
