

## Daily summary

Individuals who have received a first dose of COVID-19 vaccine\* **2,259,622**

Individuals who have received a two dose course of COVID-19 vaccine\* **1,677,738**

\*These figures are a daily cumulative snapshot of vaccinations given and recorded electronically as at 22:00 yesterday. Data entry will be incomplete at time of this daily report and the number of people vaccinated will be higher than these totals. Ongoing data entry will feed through into future updates. The data in this table are deduplicated so that people should not be double-counted, even if they appear in multiple priority groups.

### Uptake by priority group and age, counting individuals in all groups in which they belong

In this table groups are not mutually exclusive, so individuals appear in every group that describes them, and can be counted in more than one group. This is a 'public health' view, showing the total numbers in each priority group.

The table above presents a public health measure of coverage for each listed priority group, where the % vaccinated out of all those with that specific risk is calculated. The number entered in the 'Group size' column refers to all those with the specific risk that places them in their priority group, as recorded in the Welsh Immunisation System (WIS). Individuals who belong to more than one priority group will appear in more than one line in the table. For example, a person age 52 with a condition that places them at moderate risk will be counted in the group for 'moderate risk adults, 16 years to under 65 years' and also in the '50-54 years' group. In national and health board totals (in weekly reports), individuals are deduplicated so that they are only counted once.

### Uptake by priority group and age, counting individuals once only in their highest priority group

In this table groups are mutually exclusive, so individuals are counted in one group only, which is their highest priority group. This is a 'programme' view, showing actual group numbers remaining after excluding those prioritised earlier in the campaign.

Priority Group	Group size (n)	Received 1st dose (n)	Received 2nd dose (n)	1st dose uptake (%)	2nd dose uptake (%)
Care home residents	14,674	14,392	13,838	98.1%	94.3%
Care home workers	38,076	35,297	33,260	92.7%	87.4%
80 years and older	161,038	154,436	151,039	95.9%	93.8%
Health care workers	142,621	136,979	131,039	96.0%	91.9%
Social care workers	46,576	45,537	44,223	97.8%	94.9%
Aged 75-79 years	130,144	125,931	123,929	96.8%	95.2%
Aged 70-74 years	180,250	173,223	170,990	96.1%	94.9%
Clinically extremely vulnerable aged 16-69 years	79,398	74,861	72,076	94.3%	90.8%
Aged 65-69 years	155,811	147,044	143,774	94.4%	92.3%
Clinical risk groups aged 16-64 years	354,324	315,466	287,737	89.0%	81.2%
Aged 60-64 years	107,604	97,626	94,459	90.7%	87.8%
Aged 55-59 years	131,188	115,735	109,461	88.2%	83.4%
Aged 50-54 years	139,478	120,001	109,147	86.0%	78.2%
Aged 40-49 years	260,865	206,424	127,329	79.1%	48.8%
Aged 30-39 years	312,668	217,029	45,432	69.4%	14.5%
Aged 18-29 years	387,882	264,074	20,675	68.1%	5.3%
Aged under 18 years		4,839	450		

The table above presents a 'mutually exclusive', programme-view of coverage for each group, where individuals are only included in one group according to their highest level of risk. For any priority group the 'Group size' number will not include individuals if they are also in a higher priority group, for this reason, going from top to bottom, group sizes will be smaller than those in the previous table. Individuals who belong to more than one priority group in WIS will not appear in more than one line in the table. The group size figure for social care workers is likely to underestimate the actual number in Wales, as recording of this data is likely to be incomplete.

Data are provisional and undergoing continuous cleaning, this will result in fluctuations in group size and vaccination totals on a daily basis. The sum of the individual rows will not be the same as the national total for vaccinations given, due to suppression of data for a small number of groups where the denominator size is small.

## Weekly summary
