

#### Daily summary

Individuals who have received a first dose of COVID-19 vaccine\*

Individuals who have received a two dose course of COVID-19 vaccine\*

\*These figures are a daily cumulative snapshot of vaccinations given and recorded electronically as at 2200 yesterday. Data entry will be incomplete at time of this daily report and the number of people vaccinated will be higher than these totals. Ongoing data entry will feed through into future updates. The data in this table are deduplicated so that people should not be "double-counted," early fifty appear in multiple printing reports.

### Uptake by priority group and age, counting individuals in all groups in which they belong

In this table groups are not mutually exclusive, so individuals appear in every group that describes them, and can be counted in more than one group. This is a 'public health

Group	Group size (n)	Received 1st dose (n)	Received 2nd dose (n)	1st dose uptake (%)	2nd dose uptake (%)
Care home residents	14,539	14,263	13,783	98.1%	94.8%
Care home worker	38,087	35,419	33,652	93.0%	88.4%
80 years and older	170,981	164,258	161,199	96.1%	94.3%
Health care worker	142,521	137,134	132,418	96.2%	92.9%
Social care worker		45,551	44,587		
Aged 75-79 years	132,255	128,073	126,286	96.8%	95.5%
Aged 70-74 years	182,976	175,993	174,058	96.2%	95.1%
Clinically extremely vulnerable aged 16-69 years	81,216	76,871	74,534	94.7%	91.8%
Aged 65-69 years	180,201	171,047	168,129	94.9%	93.3%
Clinical risk groups aged 16-64 years	354,284	316,725	294,260	89.4%	83.1%
Aged 60-64 years	205,343	191,412	186,868	93.2%	91.0%
Aged 55-59 years	233,401	213,213	206,345	91.4%	88.4%
Aged 50-54 years	228,193	203,967	194,796	89.4%	85.4%
Aged 40-49 years	394,135	330,552	286,988	83.9%	72.8%
Aged 30-39 years	425,748	320,986	209,235	75.4%	49.1%
Aged 18-29 years	480,496	352,413	140,937	73.3%	29.3%

The stable above presents a polic health measure of coverage for sand listed priority group, where the five accordance of or if all those with that specific risks or calculated. The number extended in the Visit from goar or claimm refers to tall those with the specific risk that places them that priority group, are recorded in the Welsh immunisation Systems (WIS), and valuable who be ledge to more than one priority group will appear in more than the non-line in the table. For example, a person age \$2 \text{ with a condition that priority group will appear in more than one line in the table. For example, a person age \$2 \text{ with a condition that priority group will appear in more and and make the condition that the stable priority group will appear in more and and make the stable priority group will appear in more and and make the condition that the stable priority group is mandation and make those or taken, or will appear in more and and make the stable priority group in a stable and example priority group. In additional and example priority group is mandation and make the condition of the stable priority group is a stable priority group in a stable priority group in an additional and the stable group group in an additional and the stable group group in a distribution of the stable group group group group in a distribution group group

# Uptake by priority group and age, counting individuals once only in their highest priority group In this table groups are multipally exclusive, so individuals are counted in one group only, which is their highest priority group. This is a from

numbers remaining after excluding those prioritised earlier in the campaign.

Priority Group	Group size (n)	Received 1st dose (n)	Received 2nd dose (n)	1st dose uptake (%)	2nd dose uptake (%)
Care home residents	14,539	14,263	13,783	98.1%	94.8%
Care home workers	38,087	35,419	33,652	93.0%	88.4%
80 years and older	160,591	154,077	151,314	95.9%	94.2%
Health care workers	142,521	137,134	132,418	96.2%	92.9%
Social care workers	46,549	45,551	44,587	97.9%	95.8%
Aged 75-79 years	130,013	125,871	124,159	96.8%	95.5%
Aged 70-74 years	180,125	173,196	171,315	96.2%	95.1%
Clinically extremely vulnerable aged 16-69 years	79,312	74,918	72,462	94.5%	91.4%
Aged 65-69 years	155,768	147,148	144,601	94.5%	92.8%
Clinical risk groups aged 16-64 years	354,284	316,725	294,260	89.4%	83.1%
Aged 60-64 years	107,615	97,828	95,473	90.9%	88.7%
Aged 55-59 years	131,245	116,099	111,962	88.5%	85.3%
Aged 50-54 years	139,505	120,429	114,236	86.3%	81.9%
Aged 40-49 years	261,121	207,904	171,031	79.6%	65.5%
Aged 30-39 years	313,253	221,573	118,256	70.7%	37.8%
Aged 18-29 years	389,435	273,005	69,713	70.1%	17.9%
Aged under 18 years		6,030	873		
Unknown		1	0		

The table above presents a "instually sectionie", programme-view of coverage for each group, where individuals are only included in one group according to their highest level or risk. For any priority resup, the "Group size" insurable will not notuce included included as the thing area also in a higher priority group, for this reason, going from to be bettern, group, sizes will be amilled than those in the previous lates included as who beging from the handown forcity group in 10% will not appear in more than one for the group size and the previous lates in the desirable in the desirable in the second in the group size and the second in the group size and group size

Data are provisional and undergoing continuous cleansing, this will result in fluctuations in group sizes and vaccination totals on a daily basis. The sum of the individual rows will not be the same as the national total for vaccinations given, due to suppression of data for a small number of groups where the denominator size is small.

## Weekly summary

The below weekly summary shows total doses of Coronavirus vaccine administered by health board, and is updated every Thursday.

As at the week ending 11 July 2021, a total of 4,108,103 doses of COVID-19 vaccine were given in Wales and recorded in the COVID-19 Welsh Immunisation System.

Of the 4,108,103 doses given nationally, 2,272,055 were first doses and 1,836,048 were second doses.

Data entry at time of reporting will be incomplete and the number of people actually vaccinated will be higher. The figures below represent a weekly snapshot in activity recorded electronically. Ongoing data entry for vaccinations already given will feed through into future weekly updates.
