All age groups are based on age as at 31 March 2021, with the exception of the 16-17 year olds age group which is age as at 31 March 2021 plus those who turned 16 bet 1st April 2021 and 1st August 2021. This age cut-off date is an interim method and is subject to change in the future as more individuals become eligible for vaccination.

The table above presents a "mubually exclusive", programme-view of crearings for each group, where individuals are only included in one group according to their highest level of risk. For any priority group, the "Groups and mubure will not buckula individuals" of they area taken as higher priority groups, for this reason, groups from too to bottom, group sites will be sample that have in the privicus table (viduals are biologies and the most that are privile) groups (from too levels in the table. The group sites figure for account care workers is likely to underestimate the actual number in Walks, as recording of this data is likely to be incomplete...

Weekly summary

w weekly summary shows total doses of Coronavirus vaccine administered by health board, and is updated every Thursday The belo

As at the week ending 22 August 2021, a total of 4,502,020 doses of COVID-19 vaccine were given in Wales and recorded in the COVID-19 Welsh Immunisation System.

Of the 4,502,020 doses given nationally, 2,332,513 were first doses and 2,169,507 were second doses.

Data entry at time of reporting will be incomplete and the number of people actually vaccinated will be higher. The figures below represent a weekly snapshot in activity recorded electronically. Ongoing data entry for vaccinations already given will feed through into future weekly updates.
