Aged 18-29 years	485,659	372,738	324,778	76.7%	66.9%
Acad 16-17 years*	91.441	CA 242	0.269	66.6%	11 004

All age groups are based on age as at 31 March 2021, with the exception of the 16-17 year olds age group which is age as at 31 March 2021 plus those who turned 16 between 1st April 2021 and 1st August 2021. This age cut off date is an interim method and is subject to change in the future as more individuals become eligible for vaccination.

The table above presents a public health measure of coverage for each listed priority group, where the % vaccinated out of all those with that specific risk is calculated. The number entered in the "times out or cultime refers to all those with the appeal in risk that places them in their priority group, as recorded in the Wildel Immunication System (WIS), Individuals who belong to more than one priority group will appear in more than one line in the Table. For example, a person ages 52 with a condition that places them another arisk will be control in the group for moderate risk adults. Si spears to under 65 years' and also in the "55-54 years" group, in national and nahealth board coals (in week

# Uptake by priority group and age, counting individuals once only in their highest priority group In this table groups are mutually exclusive, so individuals are counted in one group only, which is their highest priority group. This is a 'prog

Priority Group	Group size (n)	Received 1st dose (n)	Received 2nd dose (n)	1st dose uptake (%)	2nd dose uptake (%)
Care home residents	13,860	13,602	13,259	98.1%	95.7%
